

# Energy Star and Indoor airPlus Package

THE OPTION THAT PROVIDES

## energy savings

WHILE PROTECTING YOUR FAMILY'S HEALTH

## Your healthy and energy-efficient new home awaits!

With superior build quality as standard, our Energy Star Certified new homes deliver energy saving improvements up to 30% or better than existing new homes.

**Don't settle for low indoor air-quality in your home that can lead to headaches, allergies and respiratory problems such as asthma.**

With independent air quality testing, strict adherence to EPA guidelines and HERS score as standard, each new Homecrete Home undergoes rigorous build and testing procedures to ensure a truly energy efficient and healthy home.

*Ask how our superior standard of indoor air quality can give you real peace of mind.*

**Literally sleep better at night knowing you have put the health and well-being of your family first.**
